The TravelSense™ Plan

- **No stability clause**
- **No mandatory deductible**
- **Covers any age**
- **Covers pre-existing conditions**
- **Personalized quote**

TravelSense™ is a unique insurance plan offered exclusively by PrimeLink™. Each policy is medically underwritten prior to your departure so its coverage can be customized to accurately reflect your personal medical history and probable travelling needs.

TravelSense™ insurance allows Canadians with pre-existing medical conditions to travel with confidence. Unlike typical travel insurance policies, which do not include pre-existing conditions, once approved our TravelSense™ plan covers any pre-existing illnesses and injuries throughout your trip. If you have a medical emergency while away from home, our plan will cover the costs you incur, even if you're being treated for a life-long condition.
